

Washington, D.C. - Congressman Ciro D. Rodriguez will address attendees on legislation that impacts women's health at the Breast Cancer Awareness Day event at 8:30 a.m. on Friday, October 17 at Goodwill Industries.

"October is Breast Cancer Awareness Month. During this month, we are reminded most especially of just how many suffer from this disease. At this event, women will learn preventative measures to keep healthy all year long."

A limited number of low-cost mammograms are available for those who qualify as low income or uninsured. In order to qualify, a woman needs to be between the ages of 40 and 65. In addition, anyone can benefit from the other preventative health information and services that will be available including: breast self-exam instruction, blood pressure measurements and diabetes testing. Please call 210-704-4100 to make an appointment for a mammogram at the event.
